Who makes solar powered water pumps & systems?

Distributor of Solar Powered Water Pumps & Systems for Water Wells. - Advanced Power Inc. Have an account?

Log in to check out faster. API's solar powered water and well pumps are the affordable and reliable way to pump water. For nearly 35 years, our solar-powered submersible water pumps have been at the core of our business.

Are THS solar pumps a good choice?

Backed with our two year warranty, THS series solar pumps are reliable, efficient and cost effective. Choices are from as simple as a 2" 370W or 3" 500W with 1 PV panel to a 4" 2200W (3HP) with multiple PV panels to suit your application. Solar pumps are expected to maximize the usage of the sun's energy during the day.

What is a solar water pump kit?

The Solarriver Solar Water Pump Kit is perfect for large fountains, ponds, waterfalls and rainwater collection. Its solar panel comes with a stake and can be placed anywhere due to using the 16 feet long chord or even an additional 16' extension if needed.

How to use a solar water pump?

The Sunsbell Solar Water Pump is ideal for a garden patio or pond. It comes in with a 3 m long cable and 4 different nozzle heads. It's very easy to use- just immerse the pump under water, place the panel under full sunlight and it will start automatically. Besides, the beautiful waterfall will give your garden a unique, special look.
