

# **Solar system craft kits**

## Overview

---

What can you create with a DIY solar system kit?

You can create a model of our solar system with a DIY solar system kit, such as the FloraCraft Solar System Kit. This project is easy for children and adults to work on together and provides an opportunity to learn scientific facts about the sun and planets in our solar system.

How to make a solar system mobile craft?

To make a solar system mobile craft, use recycled circular foams, yarn, and foam balls in assorted sizes. Space the planets according to their distance from the Sun and attach labels on the yarn to name the planets. Follow the source to make a candy key (each candy represents a planet) and have students practice putting the planets in order.

What is a solar system kit?

This solar system kit is a model that sits on a motorized base and rotates to mimic the planet's orbits around the sun. None of the piec.
