

# **Solar tracker kit for solar panel**

## Overview

---

What is a dual axis expanded solar tracker?

ECO-WORTHY dual axis expanded solar tracking system can control the dual-axis linear actuator to make the solar panel to follow the sunlight, Keep the solar panel always face the sunlight. Production from a dual-axis solar tracker will increase annual output by approximately 40% compare to a fixed solar system.

What is the Stracker solar tracking system?

The sTracker is a high efficiency, low maintenance, ground mount dual axis solar tracking system. Solar tracking directs solar panels at the sun all day long for maximum exposure. Solar absorption from dual axis tracking is proven to produce nearly 2x the solar power production compared to stationary solar panels.

What is a solar tracker bracket?

Compared with traditional fixed solar panel brackets, the solar tracker bracket will increase up to 40% more power generation to your existing solar panel system.

How does solar tracking work?

Solar tracking directs solar panels at the sun all day long for maximum exposure. Solar absorption from dual axis tracking is proven to produce nearly 2x the solar power production compared to stationary solar panels. Solar tracker farm. 18 solar trackers. If playback doesn't begin shortly, try restarting your device.

What is eco-worthy solar tracker bracket?

ECO-WORTHY Solar Tracker Bracket is a set of complete smart system equipped with wind speed and sunlight sensors, driving the solar panels to auto track the sunlight to enhance their efficiency. Compared with traditional

fixed solar panel brackets, the solar tracker bracket will increase up to 40% more power generation.

Can a solar tracker be placed on a flat surface?

Portable: We offer a stand that can be used to place the solar tracker on any flat surface. Contact us for details. The sTracker is considered a ground mount system but produces more power than the typical stationary ground mount system at near the same cost. The sTracker also reduces the amount of panels needed.
