

Solar water pump kits for livestock watering

Overview

What is a solar water pump kit?

The ECO-WORTHY Solar Water Pump Kit delivers reliable performance at an affordable price point. This system includes a 12V submersible pump with a 100W monocrystalline solar panel, generating a flow rate of 3.2 GPM and a maximum lift height of 70 feet.

How do I choose a solar water pump for my livestock?

Before investing in a solar water pump for your livestock, you'll need to evaluate several crucial factors to ensure you select the right system for your specific needs. Accurately calculate your daily livestock water consumption before selecting a pump. Cattle require 8-15 gallons per day, while sheep and goats need 1-3 gallons each.

What are RPS livestock solar pump kits?

RPS Livestock Solar Pump Kits are for people that believe in getting the job done themselves, and getting it done right. Our goal is to arm you with the equipment and knowledge to take control of your water and save a fistful of money doing it. Visit our YouTube channel for installation videos.

What are Dankoff solar livestock watering kits?

Designed for low to medium flow rates, these kits offer a high-lift and high-pressure solution to move water great distances and fill stock tanks. Whether drawing from a tank next to your site, or placed in the next field, Dankoff Solar Livestock watering kits reliably deliver day after day, year after year.

Should I switch to a solar pump for livestock?

Switching to a solar pump for livestock wins back an average of 2 days per month and \$1500 bucks per season. Quality equipment, great customer service. My RPS 200 system has been watering 70 cattle in northern MN for a few years now. I wouldn't hesitate to recommend them. Stop messing with

windmills, trucking, or pumping water long distances.

Can a livestock solar pump be used in a pond?

RPS has a wide range of pump sizes and technologies that can be used pumping from wells, springs, rivers, ditches and ponds. Our most popular livestock solar pump models start with just 2 small solar panels, allowing you to add more for more cattle, or deeper wells. Start sizing pump with head of Cattle »
