

Solar water pumps for wells kenya

Overview

How do solar-powered water systems work in Kenya?

Our solar-powered systems are designed to operate efficiently in Kenya's sunny climate, ensuring consistent water supply even in remote areas without grid electricity. We custom-design each system based on your specific water needs, depth of borehole, and daily sunlight hours.

Where can I buy water pumps in Kenya?

Water Pumps Kenya is one of the leading suppliers of renowned water pump brands in the country. Some of the brands include Honda, Aico and Tiger. You can find them at SK Business Park, Along Enterprise Road, Nairobi. Their contact number is 0735 288 805.

Why should you choose a solar pumping system?

Our solar pumping solutions include high-quality solar panels, efficient pumps, and robust controllers, all optimized for maximum performance and longevity. By choosing our solar pumping systems, you're not only securing reliable water access but also contributing to a greener, more sustainable future for Kenya.
