Solar waterfall pump kit

Overview

Where are these solar waterfall pump kits made?

The AquaJet Maxflow series solar waterfall pump kits are made in New York. They deliver high volume water pumping powered by the sun.

What is a solar waterfall pump?

A solar waterfall pump is a high volume water pump powered by the sun. The AquaJet Maxflow series from Silicon Solar delivers such pumps, allowing you to build your own solar waterfall. These pumps are made in New York.

Can I create my own solar waterfall pump?

For years, we've been missing a high volume solar waterfall pump system that truly allows you to build your own solar waterfall. The solar panel directly powers the submerged solar waterfall pump kit.

Where are the AquaJet Maxflow series solar waterfall pump kits made?

The AquaJet Maxflow series solar waterfall pump kits are made in New York. They deliver high volume water pumping powered by the sun. The MaxFlow 50 is the largest solar fountain pump for our standard solar pump kits.

What powers the submerged solar waterfall pump kit?

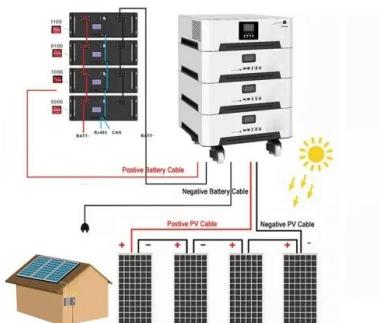

The solar panel directly powers the submerged solar waterfall pump kit. We also have battery storage options if you are interested in providing power to your solar pump kit when the sun goes down.

What is the largest solar fountain pump offered?

The MaxFlow 50 is the largest solar fountain pump for our standard solar pump kits. It's a direct power (runs on the sun) high volume pump kit designed for use with pond aeration projects or backyard waterfalls.
