# Stationeers wiki solar tracking

## Battery String-S224

- 1C Charge/Discharge
- Easy configuration and maintenance
- Power supply can be single battery string or parallel battery strings

## Overview

---

This is the most powerful way to track the sun, but the implementation might be a bit daunting at first. What you need: 1. Integrated Circuit (IC10) 2. Kit (IC Housing) 3. Kit (Sensor) > Daylight Sensor And if you.

## Stationeers wiki solar tracking

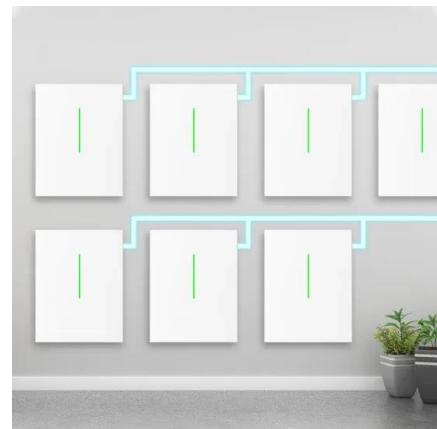

????????????????????stationeers??\_????

????????????..????????????????????,??????,??????????,????  
????????????????,????????????,????????????,?????????? ...

### [Solar Tracking System: testing, maths, and solution](#)

In this guide I'll first hand out the solution for a vertical solar tracking system, with an horizontal adding later on. What follows is a recap of the testing, and the maths behind the search for ...

### [Automatic Solar Panel in MOON : r/Stationeers](#)

That's a bit overcomplicated. After one of the latest updates (June 2022, i think) you don't need so much logic. For 2-axis (all you need on moon) you just put a sensor vertically, facing sunrise, rotate panels to the same direction, and use 1 ...

### **Europa Solar Tracking 75% to 99% Efficiency All day! :: Stationeers**

EDIT: Please scroll to the very bottom to get most updated info. This is only an approximated transformation, but gives 75% to 99% variable efficiency all day as long as there ...

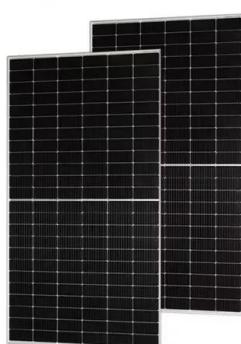

[I found a working Solar Tracking :=\)](#) :  
[r/Stationeers](#)

The guide for solar tracking remains the same. Check the wiki. I still use it. There's one that takes I think 3 inputs If it's only for supplemental not dependant. And then there's another one that ...

[PSA about solar tracking logic changes :](#)  
[r/Stationeers](#)

This slightly broke the solar tracking logic examples on the wiki that many of us were using. If you were using the 4-chip single-axis, like on the Moon, you just need to go into the logic reader ...

**Figured out how to setup computer controlled solar panel sun tracking**

Yesterday I finally figured out how to get my computer with a logic motherboard, to correctly, and consistently track the sun and power my base. It was a pretty rewarding experience ...

### The simple truth about Solar Tracking :: Stationeers ...

Another thing that's silly about solar tracking tutorials in general is you usually need a few lesser tiers of tracking before you have the materials and time to go to the best method anyway, which I hardly ever see people ...
