

Subsidy in solar panel

Overview

What is solar panel subsidy?

Solar panel subsidy is a financial aid to offset the cost of solar panel installations. This initiative is a part of the PM Surya Ghar Muft Bijli Yojana, also known as the Rooftop Solar Scheme.

What are solar panel subsidies in India?

Solar panel subsidies in India are financial incentives offered by the government to make this renewable energy source more and more popular. These schemes make solar power systems more affordable for homeowners and lower the upfront installation costs, helping more people adopt clean energy.

Who can access government solar panel subsidies?

Homeowners, businesses, and farmers can access government solar panel subsidies. To qualify, you typically need to own the property, meet certain income or energy usage criteria, etc. Farmers can benefit from schemes like PM-KUSUM, PM Surya Ghar Muft Bijli Yojana, etc.

What is a solar subsidy & how does it work?

The scheme provides for a subsidy of 60% of the solar unit cost for systems up to 2kW capacity and 40 percent of additional system cost for systems between 2 to 3kW capacity. The subsidy has been capped at 3kW capacity.

How will a government subsidy affect solar panels?

The Central Government will provide substantive subsidies directly to people's bank accounts and heavily concessional bank loans to ensure that there is no cost burden on the people. The government subsidy will cover up to 40% of the cost of installation of the solar panels.

Can residential sector avail a subsidy on solar panels?

The residential sector can only avail of Indian government social subsidiary schemes at their home or housing society. The subsidy on the solar panels is as per the guidelines of MNRE. The government aims to achieve a cumulative capacity of 40 GW of Rooftop Solar projects for the country by the year 2023.
