

# **Sunpower solar installer network**

## Overview

---

Is SunPower a good solar installer?

It also provides strong warranties on batteries and workmanship. One of CNET's top solar installers, SunPower made its name with top-of-the-line solar panels, but now offers additional options that can meet your energy goals at a lower price.

Who makes SunPower solar panels?

SunPower installs solar panels from Maxison, a manufacturer that split from SunPower in 2020. The panels are packaged and branded as the SunPower Equinox, a combination of Maxison solar panels, Enphase microinverters and mounting hardware. The panels have the highest efficiency ratings in the residential market: up to 22.8%.

Does SunPower install solar panels in New Jersey?

The company operates within a large service area that encompasses a large portion of the United States, including New Jersey. SunPower claims to have the world's highest efficiency solar panels and installs its own SunPower and Maxison cell equipment. The firm installs solar energy systems for commercial, residential, and utility properties.
