Sunpower solar login residential

Overview

Why should you choose SunPower?

Take control of your power with premium solar + storage solutions. Imagine a home or business where solar panels capture energy, intelligent batteries store and manage electricity, and your entire property becomes a smart, responsive energy environment. We're making that vision a reality. The SunPower name represents decades of solar innovation.

How do I contact SunPower?

Call 800-377-4480 or view our privacy policy for details. With decades of experience and know-how, we set the standard for solar power in the U.S. Our experience in renewable energy delivers superior results that stand the test of time. Every SunPower product we sell is verified and tested for quality, performance, and reliability.

What is the new mySunPower™ Monitoring App?

The new mySunPower™ Monitoring App builds on the existing digital experience. Homeowners can now see their lease/sales proposals, sign initial agreements, and manage their solar systems all within the application.

Why should you choose SunPower® solar panels?

Guaranteed peak power rating of 92% in year 25 (80% for conventional solar)
Higher performance in low-light conditions, such as cloudy days or shaded areas, ensuring consistent energy production. Not all solar is created equal.
SunPower® panels deliver up to 60% more energy in the same space over 25 years than conventional panels. Ask for SunPower.

Can I transfer my SunPower agreement to a new owner?

No problem - simply transfer your SunPower agreement to the new qualified owner. Own your system outright or simply pay it off early - the option is always yours. Call 818-650-8010 or complete the questionnaire and a SunPower

Estimate Advisor will contact you with comparative solar quotes.

What if I forget my solar data monitoring password?

If you misplace or forget your password, simply click the “Forgot Password?”

” button on the log-in screen to create a new one. Each solar data monitoring portal has an app created and managed by the manufacturer. You can access these apps on both Apple or Android phones and log-in using the same information used for the website (email/password).
