Overview

Who is SunPower?

SunPower is a solar panel manufacturing company that has been in operation for 35 years in the US.

Who makes SunPower solar panels?

SunPower installs solar panels from a manufacturer called Maxeon, which spun-off from SunPower in 2020. The combination of Maxeon solar panels, microinverters and mounting hardware is branded as the SunPower Equinox Solar System. Maxeon's panels have the highest efficiency ratings on the market at up to 22.8%. Where Is SunPower Available?

.

Is SunPower still selling solar panels?

SunPower continues to sell solar panels through Maxeon Solar Technologies, an independent entity formed from SunPower in 2020.

How much do SunPower solar panels cost?

The best way to determine how much SunPower solar panels cost in your area is to enter your information on the company's website to get a quote from an agent. SunPower reports that, on average, solar panels cost between \$2.65 and \$4.20 per watt, but keep in mind that is the average of all brands on the market.

Why should you choose SunPower?

Take control of your power with premium solar + storage solutions. Imagine a home or business where solar panels capture energy, intelligent batteries store and manage electricity, and your entire property becomes a smart, responsive energy environment. We're making that vision a reality. The SunPower name represents decades of solar innovation.

How do I contact SunPower?
