

# **Sunpower solar panels 40 installation guide**

## Overview

---

What is a solar installation manual?

Installation Manual provide all the information and details on how to install the product and analyse solar products. Knowledge is power. That's why we want to put the power in your hands by providing you with everything you need to build your solar knowledge. In this case, knowledge is clean, renewable solar power.

How do I choose the right solar product?

The right solar product for you will depend on your energy consumption, budget, roof type, location and many more factors. For this reason it is important that you familiarise yourself with the options available and the qualities that distinguish them.

How do I choose a solar system for my home or business?

One of the most important steps to investing in a quality solar system for your home or business is research. Not all solar products are equal and there is not one size to fit all. The right solar product for you will depend on your energy consumption, budget, roof type, location and many more factors.
