

Tata power solar systems ltd

Overview

Who is Tata Power Solar Systems Limited?

Tata Power Solar Systems Limited, formerly Tata BP Solar, is an Indian company that specialises in solar energy services. The company manufactures solar modules, solar cells, and other solar products, and provides EPC services for solar power projects.

What does Tata Power Solar do?

The company manufactures solar modules, solar cells, and other solar products, and provides EPC services for solar power projects. In February 2017, Tata Power Solar became the first Indian company to ship over 1 GW solar modules worldwide.

What is Tata Power Solar's proposed manufacturing facility?

The Proposed manufacturing facility will be producing photovoltaic cells and modules for solar power generating units of 4GW annual capacity. Tata Power Solar is India's premier ISO 9001:2008 and ISO 14001:2004 certified integrated cell and module manufacturing facility.

How much energy is generated by Tata Power Solar?

Project involves around 1,900 modules. Expected to generate 1.5 MUs of energy annually for the tea estate. With first of its kind installation at hand, the engineering team at Tata Power Solar designed a custom structure with vertical load bearing capacities after a detailed research & development.

Which is the largest solar project commissioned by Tata Power Solar?

In August 2016, Tata Power Solar commissioned a 100 MW solar project at the NP Kunta Ultra Mega Solar Power Project in Anantapur, Andhra Pradesh. This was the largest solar project commissioned using domestically manufactured solar cells and modules at the time.

How much does Tata Power Solar cost in 2021?

In June 2021, Tata Power Solar secured a contract worth Rs. 686 crore (US\$ 93.58 million) from the NTPC to build 210 MW projects in Gujarat. In April 2021, Tata Power Solar expanded the manufacturing unit capacity by doubling its cells and modules capacity to 1,100 MW.
