

Tax on solar panels in pakistan 2025

Overview

The federal government has introduced an 18 percent sales tax on imported solar panels as part of the Budget 2025-26, presented in the National Assembly today by Federal Minister for Finance Muhammad Aurangzeb.

The federal government has introduced an 18 percent sales tax on imported solar panels as part of the Budget 2025-26, presented in the National Assembly today by Federal Minister for Finance Muhammad Aurangzeb.

Move expected to impact affordability of renewable energy systems and slow down growth of the solar industry in Pakistan. The new tax, applied under the General Sales Tax (GST) framework, aims to broaden the government's revenue base amid rising fiscal pressures. Previously, solar panels had.

The federal government has introduced an 18 percent sales tax on imported solar panels as part of the Budget 2025-26, presented in the National Assembly today by Federal Minister for Finance Muhammad Aurangzeb. The move aims to create a level playing field between imported and locally manufactured.

However, new tax policies and regulations introduced in the FY2025-26 federal budget may reshape this trajectory. The imposition of an 18% General Sales Tax (GST) on imported solar panels and stricter quality testing have sparked widespread discussion among consumers, solar companies, and.
