

# Tax on solar panels in pakistan

## Overview

---

Islamabad, Pakistan – June 10, 2025 – Sales tax on solar panels in Pakistan is now 18% on imported panels, starting from the 2025-26 budget. The government of Pakistan has made this decision to support local solar panel makers and help grow clean energy products inside the country.

Islamabad, Pakistan – June 10, 2025 – Sales tax on solar panels in Pakistan is now 18% on imported panels, starting from the 2025-26 budget. The government of Pakistan has made this decision to support local solar panel makers and help grow clean energy products inside the country.

When Finance Minister Muhammad Aurangzeb unveiled Pakistan's federal budget for FY 2025–26 on June 10, 2025, one of the most discussed measures was the introduction of an 18% general sales tax on imported solar panels. As Pakistan experiences a surge in solar adoption, this move—aimed at nurturing.

Move expected to impact affordability of renewable energy systems and slow down growth of the solar industry in Pakistan. The new tax, applied under the General Sales Tax (GST) framework, aims to broaden the government's revenue base amid rising fiscal pressures. Previously, solar panels had.

The federal government has introduced an 18 percent sales tax on imported solar panels as part of the Budget 2025-26, presented in the National Assembly today by Federal Minister for Finance Muhammad Aurangzeb. The move aims to create a level playing field between imported and locally manufactured.

As of June 13, 2024, Pakistan has introduced tax incentives for solar panels, not a tax. The federal government has exempted duties on the import of key components used to manufacture solar panels, inverters, and batteries. The goal is to make solar technology more affordable and widely available.

The imposition of an 18% General Sales Tax (GST) on imported solar panels and stricter quality testing have sparked widespread discussion among consumers, solar companies, and policymakers. Here's a complete breakdown

of what these changes mean for Pakistan's solar future. 1. Why the Govt Imposed.

Islamabad, Pakistan – June 10, 2025 – Sales tax on solar panels in Pakistan is now 18% on imported panels, starting from the 2025-26 budget. The government of Pakistan has made this decision to support local solar panel makers and help grow clean energy products inside the country. This new step.
