

Tennessee solar installers map

Overview

How do I choose a solar installer in Tennessee?

Look for companies that have NABCEP Certified professionals or certified electricians on staff and are properly insured, so their workers, and you, are protected. In Tennessee, solar installers must have a general contractor's or electrical license, depending on the size of the job performed.

Does Tennessee have solar?

Tennessee has adopted solar in a big way, with more than 2,300 installations – not surprising for a state with more than 100 days of sunshine a year. Businesses and homeowners alike are noticing state incentives that make solar an attractive and clean source of energy that can help save them money.

Who is the best solar company in Tennessee?

According to solar shoppers on the EnergySage Marketplace, the top five solar installers in Tennessee are ReNew Solar Solutions, Bulldog Electrical Contractors, Inc., Green Wave Solar, and Astrawatt Solar of Nashville How many solar companies are in Tennessee?

There are 4 solar companies in Tennessee on the EnergySage Marketplace.

Do solar installers need a license in Tennessee?

In Tennessee, solar installers must have a general contractor's or electrical license, depending on the size of the job performed. The state board assigns "specialty" licenses to installers based on experience and uses this information on their financial statement to determine the size of the projects they are authorized to perform.

Do you need solar panels in Tennessee?

Tennessee's climate is fairly seasonal, so you can expect more solar

production in the sunnier summer months. Tennessee gets around 4.5 to 5 peak sun hours every day, which is pretty average in the U.S. You might need more solar panels to offset your energy usage in Tennessee than in a sunnier state like Arizona.

Is a solar battery worth it in Tennessee?

Tennessee doesn't currently offer any upfront rebates for purchasing a solar battery. But, if you want peace of mind that your home will have backup power in the event of a power outage and to see extra savings on your electric bills each month, a solar battery can be worth it.
