

Thunderbolt solar 25 watt solar panel

Overview

What is a thunderbolt® solar panel?

Through his vision and engineering expertise, the very first Thunderbolt® panel was born. This versatile, durable panel made solar energy achievable for the mainstream consumer. Since then, we've grown into one of America's most recognized and trusted solar brands.

How many watts of green energy can a solar panel power?

Get 25 watts of free green energy to power an appliance, light, small motor or battery with this solar panel. Constructed of amorphous crystal, this panel provides superior performance in bright sun and in partial shade. We guarantee this product to be free from defects in materials and workmanship 90 days from the date of purchase.

Is Thunderbolt a good solar system for a garage roof?

Thunderbolt's 400 watt solar panel kit was super easy to install on my garage roof, even as a total solar newbie. Their included battery banks provide plenty of stored power to keep my essentials running if (let's be honest - when) the power goes down.
