GEL Battery

Lithium Battery

Container storage system

Power Battery

Overview

What is happening in the solar sector in Nigeria?

The SAS sector has witnessed significant growth, fuelled by increased donor, government, and private sector investment. Most recently, the Nigerian government launched a plan to deploy 5 million solar connections via solar home system (SHS) and mini-grids by 2023.

How many solar panels are there in Nigeria?

Most recently, the Nigerian government launched a plan to deploy 5 million solar connections via solar home system (SHS) and mini-grids by 2023. About 324,000 quality verified SAS units were sold in 2019, up from negligible sales five years earlier¹, ranking Nigeria as the fifth largest market globally by sales volume.

How competitive is the solar lantern market in Nigeria?

The solar lantern category is extremely competitive, with 170 unique brands found in stock. LG QV lantern brands comprise just 23 per cent of the brands in the market and are carried by 56 per cent of traders. The Nigerian market shows a similar prevalence of non-QV brands to SAS markets in Tanzania and Ethiopia.
