At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. These self-sufficient units are ideal for powering off-grid operations, mobile businesses, events, and remote projects—all while reducing.

Our Containerised Off-Grid Solar Systems are massive energy storage systems designed to supply a business or remote location with renewable energy. Suitable for farms, mines, or a cluster of houses. Run all the gadgets you can think of, including large machinery and industrial pumps. A.

At Modbox, we design and build shipping container solar solutions to securely house your solar panels, batteries, inverters, and other equipment. Whether you're powering a remote worksite, an off-grid project, or a backup energy system, our containers are built tough for Australian conditions.

Ready to get up to 3 free quotes?

Since 2009, SolarQuotes has helped 880,383 people get quotes for solar, batteries and EV chargers across 2,991 postcodes in Australia. We have published 89,507 uncensored reviews of 2,979 solar installation companies. Most importantly, over the last 16 years we.

Deployable Solar Array (Container Top) Maximise your container roof space with the Makinex Deployable Solar Array (Container). If you have any questions about Makinex Products or would like a quote, call us or get in touch

Need A Service Or Spare Parts?

Take advantage of your container roof space.

We design and build shipping containers featuring integrated solar systems that can be used to provide microgrid energy solutions. The solar array is mounted directly onto the container, and can provide both off-grid and grid-tied functionality, with all necessary equipment to ensure safe and.
