# **Turnkey containerized solar quotation in Egypt 2026**

## Overview

---

Will solar power boost Egypt's national energy mix by 2026?

This will significantly increase the share of solar power in the national energy mix. Together, these wind and solar projects will boost the share of renewable energy in Egypt's national grid to 30% by 2026. For more insights into Egypt's solar initiatives, you can explore [Egypt Harnesses Solar Potentials Amid Rising Gas Prices](#).

How many MW solar & battery storage will be built in 2026?

The project will be constructed in two phases. The first phase of 561 MW solar + 100 MW/200 MWh battery storage is targeted to reach commercial operational date (COD) in the first half of 2026 and the second phase of 564 MW solar in the second half of 2026.

How much wind energy will Egypt have by 2026?

According to Energy Business Review, the Egyptian government has already secured \$3.5 billion in investments for wind energy projects. These projects will add 6.4 GW of new wind capacity by 2026, more than doubling the current wind capacity in the country.
