Victoria solar rebates in 2025 make installing solar panels and batteries more affordable, helping residents cut electricity bills and promote a greener future. This guide will walk you through everything you need to know about Victoria's solar rebates, eligibility requirements, application.

Australia's national "solar rebate" has been with us for a decade. The details of how it works are complicated (I explain it here) – but the effect for Australian homeowners is very simple. It makes solar systems cheaper to buy. Typically one-quarter cheaper than they'd be without the rebate.

This complete guide will show you all the solar panel rebate and incentives available in Victoria in 2025, whether you're an eco-conscious homeowner, a landlord, or an investor. You can use these incentives to lower your energy costs and help create a more sustainable future. As we move into 2025.

Check your eligibility for a solar panel (PV) rebate Check your eligibility for a solar panel (PV) rental rebate Check your eligibility for a hot water rebate You'll also need to verify your identity with 2 original ID documents. We'll show you which ones. If you can't finish applying in one go. What is a Victorian solar panel rebate?

The solar panel (PV) rebate helps Victorian households and rental providers to install solar PV systems. Solar panel rebates of up to \$1,400 are available for eligible Victorians with existing homes, homes under construction and rental properties, with the option to apply for an interest-free loan for an amount equivalent to their rebate.

Can I get a solar rebate in Victoria?

Always talk to your solar retailer about eligible rebates. The Solar Homes Program's solar panel (PV) rebate offers Victorians up to a \$1,400 rebate to install a solar panel (PV) system on their property. This rebate is accessible to existing homes as well as homes currently under construction.

What is a solar panel rebate?

The solar panel (PV) rebate is a discount of up to 50 per cent of the purchase cost to install solar panels, to a maximum of \$1,400. It is calculated after any other discounts have been applied, including Small-scale Technology Certificates. You can also apply for an interest-free loan for the equivalent to your rebate amount.

Do you offer a solar rebate?
