

# **What is the solar panel tax credit**

## Overview

---

What is the maximum incentive amount for the solar tax credit?

It will decrease to 26% for systems installed in 2033 and to 22% for systems installed in 2034. The tax credit expires starting in 2035 unless Congress renews it. There is no maximum amount that can be claimed. Am I eligible to claim the federal solar tax credit?

.

How much is the solar tax credit worth?

So if your all-in solar cost is \$25,000, your federal solar tax credit would be worth \$7,500. If you spend \$75,000 on solar and battery, your tax credit would be worth \$22,500. You own the system by going solar via cash or a solar loan (lease or PPA financing cannot claim the tax credit).

How much can families save on their electricity bills with the solar tax credit?

By helping Americans get solar on their roofs, these tax credits will help millions more families unlock an additional average savings of \$9,000 on their electricity bills over the life of the system.
