

# Who installs solar panels near me

## Overview

---

How do I find the best solar installer near me?

Follow these tips to hire the best installer near you: Look for installers who are members of the Solar Energy Industries Association (SEIA) and certified by the North American Board of Certified Energy Practitioners (NABCEP). Read their reviews on HomeGuide and Google. Get at least three in-person estimates to compare.

Who are our solar PV installers?

Our solar PV installers have accreditations and certifications with CHAS, IET, MCS, NICEIC, RECC, ISO 9001 and ISO 14001. We are fully insured for the work that we carry out, and we only work with the highest quality providers of solar panels including Canadian Solar, JA Solar Panels, Sharp, Panasonic, and more.

Where should solar panels be installed?

Residential solar installations are almost always on the roofs of homes because that is the best, most expansive surface area where the panels can catch the sunlight.

Where are solar projects installed?

Most of the solar projects are installed in the Atacama Desert where most of the copper mines are located. Indeed, the Atacama Desert receives the highest levels of radiation in the world, exceeding 2500 kWh/m<sup>2</sup> for Global Horizontal Irradiation.

Which companies have solar panels?

Machinery manufacturer, Sodick Europe, has expanded their renewable energy solutions with their 214kW solar panels. Car dealership, SG Petch, is making the most of the sunshine with their new solar panels. Leading Toyota retailer, Jemca Toyota, are saving 186 tonnes of CO<sub>2</sub> every year with their new solar PV system.

Where do solar panels work best?

Solar panels work best for homes in sunny areas with southern or southwestern exposure and don't provide as much value in areas that are regularly cloudy or rainy. How long does it take to install solar panels?
