## Overview

---

SunPower Corporation is an American provider of and products, primarily for residential customers. The company, headquartered in , was founded in 1985 by , an electrical engineering professor from . bought a majority interest in the company i.

Maxeon Solar Technologies manufactured SunPower's famously efficient panels, and you can still purchase those products through a Maxeon installer. Maxeon will support SunPower customers with warranty coverage on solar panels made by Maxeon (but not the other system components).Where are SunPower solar panels made?

The company initially focused on developing photovoltaic (PV) materials and devices for space applications. Maxeon Solar Technologies manufactures SunPower's solar panels in a variety of locations around the world. It is headquartered in Singapore, with production facilities in Malaysia, Mexico, France, and the Philippines.

Who is SunPower Corporation?

SunPower Corporation is an American provider of photovoltaic solar energy generation systems and battery energy storage products, primarily for residential customers. The company, headquartered in San Jose, California, was founded in 1985 by Richard Swanson, an electrical engineering professor from Stanford University.

Is SunPower a good solar company?

SunPower's cell technology earned the company its reputation as the most efficient on the market. Although it stopped manufacturing its own products in 2020, SunPower designed three lines of residential solar panels: SunPower Maxeon (M-Series), SunPower Performance (P-Series), and the U-Series.

Does SunPower still make solar panels?

Once the companies divide, SunPower will no longer manufacture solar panels. However, it will still continue to supply the same solar services to customers. Tom Werner will maintain his role as CEO at the company's

corporate headquarters in Silicon Valley. SunPower Corporation has a network comprised of over 500 dealers that it works with.

Is SunPower a publicly traded company?

SunPower Corporation is a publicly traded company, meaning that its ownership is organized by stocks, which are owned by investors. Current shareholders will receive a 71% stake in Maxeon Solar when the company becomes public. SunPower's stocks have fluctuated quite a bit in the past.

Will SunPower split into two companies?

SunPower announced its plan to split into two separate companies in the second half of 2020. Maxeon Solar Technologies is a new company formed from the spin-off efforts of SunPower and they now focus on the manufacturing of solar panels.
