

# **Wholesale price of container pv storage in Spain**

## Overview

---

Costs range from €450–€650 per kWh for lithium-ion systems. Higher costs of €500–€750 per kWh are driven by higher installation and permitting expenses. Slightly higher prices due to lower population density and higher transportation costs. Where to buy shipping containers in Spain?

Are you looking for shipping containers in Spain. Alconet is specialized in selling and buying all types of shipping containers worldwide. Thanks to our strong partnerships with international suppliers and transporters we can provide high quality shipping containers in Spain, after they have been transported from Rotterdam, Netherlands.

Which PPA projects are available in Spain?

Both newly built, subsidy-free solar and onshore wind assets are available for PPA contracts in Spain. There's a large pipeline of PPA projects under development ranging from different sizes and technologies. Most of the projects in the pipeline are Solar PV, whereas on-shore Wind has rather limited availability and longer time-to-market.

Is PPA a good investment in Spain?

Today, PPA market landscape in Spain is one of the most attractive when compared to the future wholesale price of electricity which has increased a lot since 2021. Demand for PPAs continues to grow rapidly as customers are looking for other cheaper hedging alternatives to meet their green corporate objectives.
