

Wholesale price of mobile solar unit in Mexico

Overview

How much do solar panels cost in Mexico?

As of Mar 2023, the average cost of solar panels in Mexico is \$2.42 per watt making a typical 6000 watt (6 kW) solar system \$10,164 after claiming the 30% federal solar tax credit now available. This is lower than the average price of residential solar power systems across the United States which is currently \$3.00 per watt.

Where can I find more information about solar equipment?

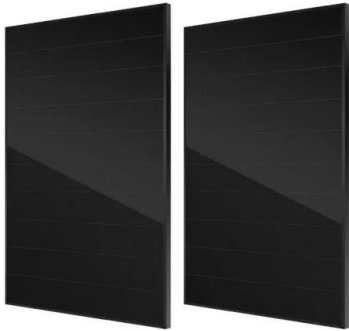

For more information about our technology and products such as; inverters, charge controllers and solar batteries. Contact us at 664 607 1545 or through our social networks and mail.
