Overview

Where is solar power installed in Saudi Arabia?

Majority of the solar power equipment that is installed and used in the country are from foreign suppliers and distributors. By the looks of it, this will be the case in the years to come. There are many ports serving Saudi Arabia to facilitate logistics and trade activity. These ports are as follows: Port of Ras al Mishab.

Is Saudi Arabia a good place to invest in solar power?

Given the resources that are available in Saudi Arabia, it is easy to get local support and bring in investments in the region. There is no clear projection as to the rate of development and growth in the country's solar power industry. As it stands, Saudi Arabia has failed to live up to its potential.
