How much does a 440w solar panel cost in New Zealand?

A single 440W solar panel in New Zealand costs around \$230. But panels are just one part of the puzzle - you'll also need an inverter, mounting gear, and professional installation to turn those panels into a fully functioning solar power system. Find out how to choose solar panels here. Should I Wait For The Price Of Solar To Fall?

.

How many solar panels do I need in New Zealand?

Figuring out how many solar panels you need for your home in New Zealand doesn't have to be a head-scratcher. It all comes down to your household's energy habits, roof space, and how much sunshine your area gets. Most Kiwi homes opt for systems between 4kW and 8kW, which translates to around 9 to 19 solar panels.

Where can I get solar training in New Zealand?

New Zealand's only live in-house solar training centre where installers electricians, builders and resellers nationwide can gain first-hand experience installing solar. We at Solar Partners provide a range of training modules led by industry leaders across all our products.
