Try Solar Outlet! We.

Solmart is a rapidly expanding nation wide wholesaler specializing in a broad spectrum of renewable energy and energy-efficiency products. Our extensive product range is sourced from a diverse network of manufacturers. We serve retailers, installers, and commercial and industrial clients across.

At Modbox, we design and build shipping container solar solutions to securely house your solar panels, batteries, inverters, and other equipment. Whether you're powering a remote worksite, an off-grid project, or a backup energy system, our containers are built tough for Australian conditions.

At PV Wholesale, we are a locally owned and operated solar company

dedicated to providing high-quality products at wholesale prices. Our mission is simple: to help every Australian power their home with affordable and reliable solar solutions. We focus on delivering exceptional customer service. What are shipping container solar panels?

Our shipping container solar panels are designed to withstand the rigors of outdoor use and provide long-lasting performance. We utilise high-quality solar panels that are built to withstand harsh weather conditions, including extreme temperatures, rain, and wind.

Where can I buy solar panels online?

Try Solar Outlet! We are the largest online distributor for solar panels, inverters, batteries and complete kits. Solar Outlet supplies leading brand products with a hassle-free easy online ordering system. We have warehouses in Sydney, Brisbane, Melbourne, Adelaide, Perth and Townsville.

What is a solar container build?

It's a modified shipping container built to house solar panels, batteries, inverters, and other off-grid power systems. These units are ideal for powering remote sites, construction camps, emergency setups, or as a portable backup energy system. What's included in a solar container build?

What are the benefits of using shipping container solar panels?

The benefits of using shipping container solar panels are numerous. Here are some key advantages: Energy Independence: By harnessing solar energy, you can become less reliant on traditional power sources, reducing your dependence on the grid. This is particularly beneficial in remote locations or areas where power supply is unreliable or expensive.

What types of shipping containers are available in Australia?

With our extensive range of containers and fast delivery service Australia wide, your business can thrive and meet the growing demand for containers. We offer an extensive selection of shipping containers, including standard dry containers, refrigerated containers, open-top containers, flat-racks, and more.

Are solar containers safe?

Yes — all solar containers are built from weatherproof, lockable shipping containers. Your gear is safe from the elements and secure from unauthorised access. Can the system be expanded later on?
