Why should we use solar power in Nigeria?

Nigeria is blessed with so much sunshine, so why not exploit it. Solar power systems use energy from the sun to save people money and resources. The solar panels are made of silicon which is a resource that grows on trees. Without these panels, our planet will be overpopulated with pollutants that harm us in many ways.

Is it cheaper to buy a solar panel today?

The argument is that although it may be cheaper to buy a solar panel today than it would be to buy it in a few years, you might end up spending more money buying batteries and other equipment for storing energy. As we can see, there are many arguments against investing in solar panels today.
