What kind of solar panels Does A1 solarstore offer?

A1 SolarStore offers PV modules from all over the world for competitive prices and with fast delivery. Let us tell you a little about the panels that we offer, how we deliver them and what kind of solar panel you might need. There are three most popular types of solar panels on the market: monocrystalline, polycrystalline and thin-film.

What are monocrystalline solar panels?

Monocrystalline panels are easy to distinguish by the black color of the cells. Their efficiency today varies from 16 to 22%, which means that mono solar cells convert into direct current from 16% to 22% of the sunlight that they receive. That's the most popular type of panels — in fact, most top manufacturers don't even sell anything else.
