Gustavo Gioco in 2012 with the aim of developing products for the renewable energy and sustainable mobility sectors on an industrial level, in order to expand their applicability. The flexible panel as an idea was born between 2004 and 2005 for developing countries where it was necessary to create.

Used for a large number of containers — allows modular linking of multiple containers equipped with the Solar Container system using a single inverter up to 60 kW. Works in a system with an inverter. Several containers can be connected. Requires mains power supply. Use with one or more containers.

Solar panels Italy comes in three main types. The battery packs are an integral part of all these solar panel types. These panels are made from pure silicon. The crystal structure explains why they're called mono crystalline. They are the most efficient solar panels but also the most expensive.

Every month we publish a current price index on the development of wholesale prices of solar modules. In doing so, we differentiate between the main technologies available on the market. Since 2009, pvXchange has provided a unique price index for the european market, which has become an invaluable.
